

## MAESTRO ILAIYARAAJA LIVE IN KL POSTPONED TILL FURTHER NOTICE

AS we welcomed 2021 over a month ago, all of us at Mojo Projects were excited to see what the new year will bring emerging from the challenges of the pandemic. As you know, COVID-19 severely impacted the 2020 season and many of last year's events were rescheduled to 2021 dates, including our much-anticipated **Maestro Ilaiyaraaja Live in Kuala Lumpur** concert.

Scheduled for Feb 20, it will now be postponed to an indefinite date that will be announced later. The decision to postpone the concert again is due to the global pandemic, and even with the roll out of the vaccine, there are still a huge number of uncertainties and unanswered questions that make a concert in February difficult for everyone, especially the safety of our performers from India and the Maestro himself.

Mojo is currently working with our promoter partner, AirAsia RedTix to plan for a variety of scenarios. While it's too early to forecast attendance numbers, we anticipate some movement in the calendar ahead. This will be a rolling process with many factors based on our community's progress in driving down COVID-19 numbers and the opening of international borders by Malaysia and India.

Our team is on the ball to track COVID figures and plan for and implement the protocols required for fans to gather safely. However, given the uncertainty, we understand if a refund is preferred. We will do our best to process the refunds within 60 days of application. **There is no deadline set for any refund request. We are committed to all ticket buyers, please drop your request at: <https://rb.gy/t7coyx>**

This past year has been incredibly challenging and awash with losses, but also full of unexpected blessings. Please stay safe, stay positive and keep those good vibes flowing. We will continue to share news and safety protocols as we have them, and we look forward to seeing you soon. We are contactable via the channels below if you need to speak to us.

Thank you.

Sincerely,

Mojo Projects  
#TeamMojo
